# Basava Prabhu Mugali

Embedded Software Engineer at Sasken Technologies Limited Bengaluru

### Summary

Embedded Software Engineer at Sasken Technologies limited System Programmer with experience in porting & fine-tuning Linux kernel onto newer platforms, Linux device driver development, debugging tools.

## Experience

Sasken Technologies Limited Embedded Software Engineer March 2019 - Present (1 year 8 months) bangalore

- \* Upgrading the kernel and Android version on Android device and Qualcomm SDM boards to latest version and Porting it into devices.
- \* Working with git to full fill the up-gradation project.
- \* Understanding the flow of booting process of Android devices and specific features related to android kernel .
- \* Android linux kernel and AOSP building and debugging, understanding and flashing different images into devices. Use and exploring of AOSP to building all kinds of Android things.
- \* Exploring debugging tools to make our task simple as possible as.

Vector India Pvt. Ltd. Embedded Software trainee September 2018 - March 2019 (7 months) Bangaon Area, India

- \* Learning is such a beautiful thing .
- \* Understanding how effectively languages are used in real world life .
- \* Exploring C, Data Structure and C++ to develop real world applications.
- \* Designing preprocessor stage of compiler using c .
- \* Developing effective Data base for all kind of organisation using Data structure.
- \* Using 8051 microcontroller to develop real world embedded devices like wether monitering system in AC.

- \* Understanding linux , how linux works , developing applications on linux and Device driver development .
- \* Building of OS and making an embedded device to boot up by flashing kernel onto it.

## Education

S G Balekundri Institute of Technology, BELGAUM
Bachelor of Engineering - BE, Embedded enggering · (2014 - 2018)

Kendriya Vidyalaya · (2002 - 2014)
